

X&O 50

New

One of the most recent developments in the Spanninga assortment is the X&O 50. This elegant e-bike headlamp is executed with a miniaturized version of the high performance Philips® optical system. The X&O 50 comes in two versions, of which one with DRL© and a high beam function of +50 Lux. To operate the high beam, the headlamp is supplied with the special SW007 handlebar switch.
